Dear Md Tanzim Reza,

Paper ID: 354

Title: Interpretable Retinal Disease Classification from OCT Images Using Deep Neural Network and Explainable AI

Decision: Accept

Congratulations!

We are delighted to inform you that your paper has been provisionally accepted for the **ICECIT 2021**.

Now, we would like to request you to submit the camera-ready copy of your paper through CMT. The detailed guidelines for camera-ready submission and registration are given on the conference website:  
<https://conference.ku.ac.bd/ICECIT/2021/>

In preparing the camera-ready copy, please follow the reviewers' comments (if any), check your figures, equations, and tables of your paper (if any), the spelling of the authors' names and affiliations, and common grammatical errors (if any) as well. Your paper and references **MUST** be written according to IEEE format. You are requested **NOT** to **INCLUDE** any author in your paper if he or she is in the IEEE prohibited authors' list.

Please make sure the similarity/plagiarism score is low. IEEE may reject a paper at the end if it has a higher score (usually &gt;30%).

We appreciate your interest in **ICECIT 2021** and cordially invite you to attend the conference to enjoy the technical and social interactions with academia and researchers.

We also look forward to receiving submissions from you at future conferences.

Best regards,

-----

**2021** International Conference on Electronics, Communications and Information Technology Team
